Peer Review for Microsoft Power BI

Vendor Overview   Evaluation & Contracting   Integration & Deployment   Service & Support   Product Capabilities   Additional Context

"Microsoft Power BI: Making Complex Analysis Simple"

Submitted Feb 3, 2025

4.0 ★★★★☆ Overall User Rating

Product(s): Microsoft Power BI

Overall Comment: "In my opinion, Microsoft Power business intelligence proves itself as an outstanding tool for data visualization. I love its ability to easily create complex data models and even relations for much deeper analysis."

Lessons Learned

What do you like most about the product or service?

It makes it easy to understand data through its interactive reports and a variety of charts and graphs. I like how it offers both on premise and cloud-based solutions which makes it better accessibility and in security perspective.

What do you dislike most about the product or service?

However, I noticed that while handling large scale of dataset its performance gets compromised unless I optimize it properly.
